(tied 10 to a bundle)	

New Almey

ALMEY, Flowering Crab—New! Fiery Crimson! Sensational! Almey takes its place as the most beautiful flowering crab in America. The tree is upright, vigorous and hardy. Almey blooms young. Each spring the two year old trees in the nursery are covered with blooms. Almey is the only variety that does this. It is hardy and will do well in any location. The fruits are maroon, and last into the winter season.

DOGWOOD—PINK FLOWERING

(Cornus Florida Rubra.) This unique tree is rapidly becoming the most popular of the **FANCY FLOWERING TREES**. It is called the Aristocrat among the finest plantings in America. This small, uniform tree is **literally** covered with large, sparkling, rose-red flowers often measuring three to four inches in diameter before the leaves appear in the early spring. Its grayish-green foliage makes it attractive during Summer, and in early Autumn the foliage turns to a glistening rich crimson. Our select trees are propagated from buds taken from fine specimen trees which have the largest and most vivid colored blooms. The tree is extremely hardy and will thrive in most sections of the United States. The Flowering Dogwood is conceded to be the most outstanding and the most distinct flowering tree in America. This year we are able to price this magnificent tree in reach of all.

	Each
6 to 12 inch, bare root.....	\$.40
12 to 18 inch, bare root.....	.50

(Bare root trees tied 10 to a bundle)

WHITE FLOWERING DOGWOOD, Cornus Florida

One of the most popular of all our native trees. Its beauty in the spring with its snowy clouds of white blossoms is unsurpassed, and the red berries and crimson leaves of fall are one of autumn's chiefest charms. We offer the following most popular sizes in which to plant. The white dogwood is unexcelled as a street planting tree.
